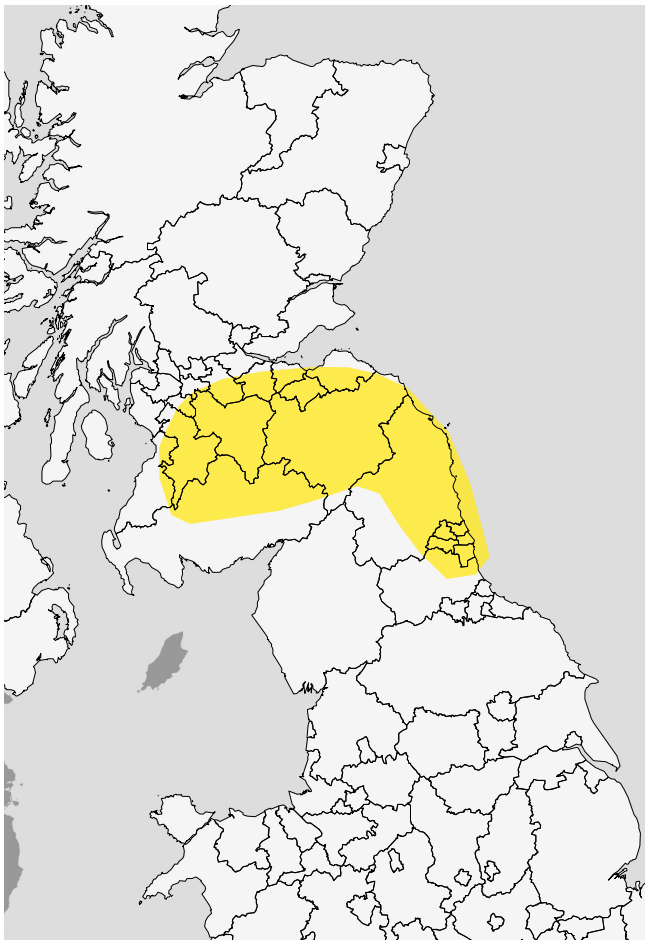
Yellow warning
Thunderstorm

Between
13:00 Wed 8 Jun 2022 and
20:00 Wed 8 Jun 2022



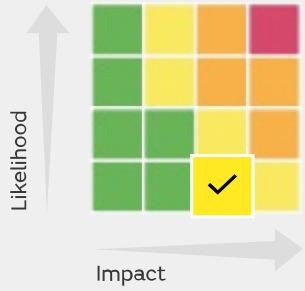
Heavy, slow moving showers and thunderstorms are likely to develop during Wednesday afternoon.

What to expect

- There is a small chance that homes and businesses could be flooded quickly, with damage to some buildings from floodwater, lightning strikes, hail or strong winds
- Where flooding or lightning strikes occur, there is a chance of delays and some cancellations to train and bus services
- Spray and sudden flooding could lead to difficult driving conditions and some road closures
- There is a slight chance that power cuts could occur and other services to some homes and businesses could be lost

Further details

Following the clearance of overnight rain, this area is likely to see the development of slow moving showers and thunderstorms this afternoon. Although many places will miss the heaviest showers a few places could see in excess of 30mm of rain in a couple of hours, possibly accompanied by lightning and hail, which would be enough to cause difficult driving conditions and localised surface water flooding.



✓ Very low likelihood of medium impacts
